Massachusetts General Hospital
Massachusetts General Hospital for Children

Pediatric Cardiology
Assistant in Pediatrics/Assistant Pediatrician

The Department of Pediatrics, Division of Congenital Cardiology at Massachusetts General Hospital (MGH) and MassGeneral Hospital for Children (MGHfC) invites applications for full-time appointment as an Assistant in Pediatrics or Assistant Pediatrician to join a multidisciplinary team of researchers and clinicians. The successful candidate will have earned an M.D. or M.D./Ph.D. or equivalent and be BC/BE in Pediatric Cardiology.

Strong clinical demand in our congenital cardiology program offers exciting opportunities to participate in the care of pediatric cardiology patients. We offer a position with an emphasis on the outpatient care of patients, performance and interpretation of trans-thoracic echocardiograms and the interpretation of electrocardiograms, holter and event monitors. The clinical role incorporates management of the postoperative cardiac surgical and catheterization patients, heart failure management and inpatient cardiac consultation. The candidate will be joining our hospital and clinic based Pediatric Cardiology group of seven academic and collegial pediatric cardiologist faculty members.

The candidate's primary focus will be as a clinician/educator, with the potential for involvement in clinical research. Particular interest is in recruitment of individuals with expertise and interest in epidemiology, clinical effectiveness, informatics and/or translational science. Academic rank as Instructor or Assistant Professor, salary and benefits will be commensurate with qualifications, achievements and training.

Pediatric Cardiology at MGH seeks candidates whose experience, teaching, research and community service has prepared them to contribute to our commitment to excellence and diversity. Collaboration with other pediatric subspecialists including the neonatal intensive care unit, pediatric intensive care unit, genetics, ENT, pediatric surgery and pediatric ECMO program, provides an enriching clinical, academic and research experience.

Interested candidates should submit a curriculum vitae and a one page narrative of clinical, teaching and research interests to:
Oscar Benavidez, M.D.
Chief, Division of Pediatric Congenital Cardiology
Massachusetts General Hospital
Department of Pediatrics
