

**Massachusetts General Hospital
Division of Adolescent and Young Adult Medicine**

The Division of Adolescent and Young Adult Medicine at the MassGeneral Hospital for Children is seeking a part-time faculty member at the Instructor or Assistant Professor level to join nine other physicians and an interdisciplinary team including nursing, social work, and nutrition, among other professionals. This is a part-time clinical position at .50 FTE (4 outpatient sessions, at MassGeneral Hospital for Children and/or affiliated suburban and community practices) and includes 6-8 weeks of inpatient call responsibilities.

The division provides outpatient and inpatient services to primary care and consultative patients and serves as a center for transition from pediatric to adult medicine. The candidate should be comfortable managing the care of medically complex patients and providing consultative services to adolescents and young adults with eating disorders, gynecology/reproductive care needs, mental health issues and obesity. Division members also provide inpatient-attending services for patients with eating disorders. Faculty members are closely involved in teaching residents and medical students as well as in postgraduate educational settings, advocacy and administration.

The successful candidate should be board certified in a primary care specialty including pediatrics, medicine, medicine/pediatrics or family medicine. In addition, the candidate should have completed a fellowship in adolescent medicine and be board certified/eligible.

This clinical position will provide excellent opportunities to be involved in quality improvement initiatives in collaboration with MGHfC as well as participation in MGH-based academic activities including MGHfC Grand Rounds and conferences. Opportunities to collaborate in research projects are available at the hospital as well as affiliated academic medical centers. An academic pursuit is encouraged.

An academic appointment as an Instructor, part-time or Assistant Professor, part-time at Harvard Medical School will be commensurate with the successful candidate's experiences.

US News and World Report ranks Massachusetts General Hospital in the Top 5 best hospitals honor roll with 14 adult and five pediatric specialties nationally ranked. Mental health services are among the best nationally. MGH has the largest hospital-based research program in the United States with a budget of 1 billion dollars in 2019. The hospital is a founding member of Partners HealthCare, the largest not for profit healthcare system in New England.

To apply, please submit your CV and cover letter to Scott E. Hadland, MD, MPH, MS shadland@mgh.harvard.edu, Chief, Division of Adolescent and Young Adult Medicine, MassGeneral Hospital for Children.
