Clinical Investigator
Sarcoma Center at Dana-Farber Cancer Institute

The Sarcoma Center at Dana-Farber Cancer Institute (DFCI) and the Department of Medicine at Brigham and Women’s Hospital are seeking a medical oncologist (MD or MD/PhD) for an academic investigator position focused on translational and clinical research in the context of expert subspecialty clinical care. Our Center has a strong multidisciplinary program with extensive research aimed at identifying new diagnostic tools, biomarkers and mechanism-based therapeutics for molecularly-defined subsets of sarcomas, gastrointestinal stromal tumors (GIST), and other mesenchymal neoplasms. The successful candidate will also engage in teaching medical students, house-staff, and fellows in the clinic, inpatient and laboratory settings.

The Sarcoma Center is supported by the extensive core facilities and collaborative research resources of the Dana-Farber Cancer Institute, the Dana-Farber/Harvard Cancer Center, and the Ludwig Center at Harvard Medical School. This position is based in the Department of Medical Oncology at DFCI and the Department of Medicine at Brigham and Women’s Hospital.

The academic appointment will be at the Instructor, Assistant or Associate Professor level at Harvard Medical School and determined by the applicant's credentials. Salary and benefits will be competitive with other institutions. Applicants should have an MD or MD/PhD degree and must be U.S. board certified or board eligible in Internal Medicine and Medical Oncology.

We encourage potential candidates to email a letter of interest, a Curriculum Vitae, and the names and contact information of three references to:

Suzanne George, MD
