General Neurologist

The Department of Neurology at Massachusetts General Hospital is recruiting a board-certified Neurologist or Pediatric Neurologist at the level of Instructor, Assistant Professor, or Associate Professor with experience and interest in joining our academic neurology practice. Successful applicants should have a completed a Neurology or Pediatric Neurology Residency in a major teaching hospital and should be familiar with working with neurology residents, interns and fellows within an academic neurology department in a general hospital setting. Applicants will be asked to provide academic teaching to HMS trainees at all levels as specified by the Harvard Medical School teaching requirements. Advanced training or interest in a neurological subspecialty, for example Epilepsy, Movement Disorders, Memory Disorders, Behavioral Neurology, Inflammatory and Autoimmune Neurology, Stroke, Neuromuscular Disease, Sleep, Headache, Autonomic Disorders and Pain, is welcome, but not required. Applicants with a clinical or scientific research interest are encouraged to apply. An appointment at the Harvard Medical School at the appropriate level will be considered.

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Interested candidates should submit a Curriculum Vitae and letter describing interests and experience to:

Merit Cudkowicz, MD, MSc & Andrew Cole, MD
