Neonatology & Newborn Medicine

Massachusetts General Hospital

The Neonatology and Newborn Medicine Division in the Department of Pediatrics at Massachusetts General Hospital (MGH) is seeking candidates for a full-time or part-time clinical faculty pediatric hospitalist to provide clinical care in the MGH Neonatal Service.

MGH is an academic medical center affiliated with Harvard Medical School. The perinatal program includes approximately 3,700 deliveries/year with an active high-risk maternal-fetal medicine service, neonatal transport program and associated Level II Special Care Nursery (SCN) and Level IV Neonatal Intensive Care Unit (NICU).

Responsibilities of the pediatric hospitalist will include coverage of our 21-bed level IV NICU, our 17-bed level II SCN, and our high-risk delivery service. Coverage in the NICU involves managing a caseload of acutely ill neonates, under the direct supervision of a neonatologist, who present with varied medical and surgical diagnoses. Therapies in the NICU include HFV, inhaled nitric oxide, and ECMO. SCN coverage is as a primary provider for late preterm infants, convalescing preterm infants, and infants with delayed transition. In-house neonatology back up and support is available 24/7 for all services.

We provide education to the fellows of the Harvard Neonatal-Perinatal Fellowship Program and residents in the MGH Pediatric Residency Program. We are actively involved in clinical research and quality improvement projects, including participation in NeoQIC, the Neonatal Quality Improvement Collaborative of Massachusetts.

Requirements include an MD or equivalent degree, eligibility for medical licensure in the State of Massachusetts, certification (or eligibility for certification) by the American Board of Pediatric Medicine. Priority will be given to experienced candidates.

Academic appointment at HMS of Instructor, Assistant or Associate Professor will be commensurate with experience, qualifications and achievements.

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, pregnancy and pregnancy-related conditions, or any other characteristic protected by law.

This position will become available January 1, 2022 and will remain open until filled.

Interested candidates should send a letter of interest and their CV to: Sergei Roumiantsev, Medical Director of Neonatology at SROUMIANTSEV@mgh.harvard.edu
MGH is a founding member of the Mass General Brigham Healthcare System and is located in Massachusetts and was ranked by U.S. News and World Report as the Nation’s #1 Hospital. Excellent compensation and comprehensive benefits are provided.
