The Department of Pathology at Brigham and Women's Hospital, a principal teaching affiliate of Harvard Medical School, is seeking a Tissue Typing Laboratory Director. The Tissue Typing Laboratory services a 793-bed hospital within the Mass General Brigham Health Care System, performs >63,000 tests annually for solid organ transplant candidates and prospective donors, and serves as a reference lab for 12 solid organ transplant programs in 6 New England states. Testing is performed using state-of-art technology and includes, but is not limited to, HLA low- and high-resolution typing, HLA allele testing, ABO blood group typing, anti-HLA antibody screening, cytotoxic and flow cytometric crossmatching, and chimerism.

The candidate should have a MD, PhD, or MD/PhD degree and be Board certified or eligible in Anatomic and/or Clinical Pathology (ABP), Medicine (ACGME), and/or chemical, physical, biological or clinical laboratory science (ABMM, ABCC, ABB, ABML1). The applicant should be ASHI-certified or eligible and have a strong record of training, clinical experience, and academic scholarship in tissue typing. A successful applicant is expected to play an active role in the daily operations of the Tissue Typing Laboratory (including clinical consultation, assay selection, development, and implementation, quality improvement, and regulatory compliance) and the education of Clinical Pathology residents.

The BWH Department of Pathology has more than 120 faculty members and 55 residents and clinical fellows and offers complete Anatomic and Clinical Pathology services. The Department provides unparalleled opportunities for clinical, translational, and basic research. Collaborations in many areas of science and access to innovative educational technologies are available in the department and through interactions with investigators at multiple Harvard-affiliated institutions.

Applicants are anticipated to be hired at the academic rank of Assistant Professor or Associate Professor and should be committed to excellence in patient care, scholarship, and effective teaching. Salary and rank will be commensurate with experience and accomplishments.

Please send your CV and cover letter detailing experience and interest, and 3 letters of reference to:

Stacy Melanson, MD, PhD
Director, Clinical Laboratory, Department of Pathology
Brigham and Women’s Hospital
75 Francis Street
Boston, MA 02115
