Advanced Heart Failure and Heart Transplant Cardiologist

VA Boston Healthcare System

The Cardiology Section at VA Boston Healthcare System (VABHS) in collaboration with the Cardiovascular Medicine Division of Brigham and Women’s Hospital (BWH) invites applications for a Heart Failure Cardiologist. The successful candidate will participate in heart failure care at VABHS with a focus on advanced heart failure and the new Mechanical Support and Heart Transplant Program in close collaboration with the Cardiovascular Division at BWH. In addition to clinical duties in cardiology and heart failure at VABHS, this position includes clinical activities on the heart failure and transplant services at BWH. The clinical activities include inpatient cardiology, advanced heart failure, mechanical circulatory support and heart transplant services, and outpatient ambulatory continuity care clinics.

The position involves teaching of residents, Cardiovascular Disease Fellows, and subspecialty Fellows in Advanced Heart Failure and Transplant Cardiology. We encourage applications by candidates with a successful track record and interest in developing an active program in clinical or basic research, quality of care, or equivalent academic area. Academic appointment at Harvard Medical School (HMS) as Instructor, Assistant Professor or Associate Professor will be provided commensurate with experience and accomplishments.

VABHS is the major tertiary referral center for Veterans from throughout New England and is strongly affiliated with HMS and Boston University School of Medicine. The System comprises three major campuses and five community-based outpatient clinics. VABHS is the largest recipient of VA intramural research funds and ranks among the top VA facilities in total research funding.

The position requires US citizenship, M.D. with licensure, and Board certification in Cardiovascular Diseases and Advanced Heart Failure and Transplant Cardiology. Board certification in Cardiovascular Diseases and certification/eligibility in Advanced Heart Failure and Transplant Cardiology is required. At least 3-5 years of experience in a high-volume mechanical circulatory support and heart transplant center is preferred.

We are equal opportunity employers, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, pregnancy and pregnancy-related conditions or any other characteristic protected by law. Women and minority candidates are particularly encouraged to apply.

Enthusiastic candidates should submit a CV and letter of interest to at BostonCardiologistSearch@va.gov
