Clinic Physician/Endocrinologist
Adult Diabetes Section- Multiple positions

The Adult Diabetes Section of the Joslin Diabetes Center is seeking to recruit academic Clinical Endocrinologist(s) to join its large group of providers, participating in clinical care, research, and teaching. The Joslin Diabetes Center, a world-renowned diabetes institution affiliated with Harvard Medical School and member of the Beth Israel Lahey Health network, offers cutting-edge diabetes care to a diverse population across the Greater Boston area, as well as other national and international visitors.

As part of our collegial group of clinicians, you will join 20 MDs and 9 NPs supported by exceptional CDCES, RDs, exercise physiologists, and behavioral health specialists to deliver person-centered, culturally-sensitive, comprehensive diabetes care. Among others, programs focused on underserved populations such as the American Asian Diabetes Initiative and the LatinX Initiative are at the core of our mission.

Specific interest and expertise in subspecialty diabetes care is particularly welcome, including:
- Management of persons with diabetes in pregnancy
- Weight management in type 2 diabetes
- Care of young adults with type 1 diabetes, with a focus on diabetes technology.

Although primarily in the outpatient setting, the ideal candidate may also contribute to the activities of the inpatient diabetes consult service in coordination with a team of attending physicians, endocrine fellows, and diabetes educators.

Other essential responsibilities of the position include active participation to teaching of residents and endocrinology fellows, and interest in quality improvement in diabetes care delivery.

Opportunity for academic appointment at Harvard Medical School as Instructor, Assistant or Associate Professor will be commensurate with experience, training and achievements. Suitable candidates will have an MD or an MD-PhD, and Board Certification in Internal Medicine and BC/BE in Endocrinology.

Candidates must have the following experience/qualifications:

- M.D. degree from an accredited school
- Fellowship in endocrinology and metabolism
- Certification and licensure in Massachusetts
- Board certified in internal medicine
- Board certified in endocrinology/metabolism or eligible for Board certification (with certification expected within 2 years from completion of Fellowship)

Interested candidates should apply via the Joslin website (www.joslin.org) or via this link: https://jobs-joslin.icims.com/jobs/3536/physician-endocrinologist--%28joslin-clinic%3a-adult-diabetes%29/job

Joslin values diversity and inclusion, and we encourage diversity applicants.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
