Pre-Malignant Clinician for Multiple Myeloma Search

The Medical Oncology Hospital Medicine Program at the Dana-Farber Cancer Institute (DFCI) and Brigham and Women’s Hospital (BWH) is seeking a full-time medical oncologist (MD or MD/PhD) for an academic Clinical Investigator position in our Multiple Myeloma Program. The successful candidate will participate in a very active multiple myeloma clinical practice that is fully integrated within a large and growing clinical and translational research program, specifically focusing in the area of premalignant hematological conditions, namely MGUS, smoldering myeloma, Clonal hematopoiesis, MBL, etc.

Multiple opportunities exist for collaboration with basic and translational researchers in our team science-oriented program. The successful candidate is expected to take an active role in conducting clinical trials focused on precursor hematologic malignancies. The chosen candidate will be teaching fellows and students in the inpatient setting.

The position is based in both the Department of Medical Oncology at DFCI and the Department of Medicine at the BWH and includes collaboration with other institutions affiliated with the Dana-Farber/Harvard Cancer Center and the Harvard Medical School.

The academic appointment will be at the Instructor or Assistant Professor level at Harvard Medical School and determined by the applicant's credentials. Salary and benefits will be competitive with other institutions. Applicants should have an MD or MD/PhD degree and should be with ABIM certification and be eligible for ABIM subspecialty certification in medical oncology and hematology.

Interested candidates should submit a letter of interest by email along with their CV and the names and email addresses of three references to:
