Assistant/Associate Professor

Posting Details

Job Code/Description: Open Rank (000000)

Visible to Candidates

Title: Assistant/Associate Professor

School: Harvard School of Dental Medicine

Department/Area: To be determined based on the candidate’s expertise

Position Description: The Harvard School of Dental Medicine (HSDM) Office of Research is seeking applicants for one or more junior faculty positions at the rank of Assistant or Associate Professor. Academic rank and salary will commensurate with education, experience, and qualifications.

The successful candidates will develop an independent and independently funded research program. Areas of research interest can fall within a broad range of topics in biomedical and health science, including, but not limited to: microbiology, cell biology, immunology, stem cell biology, neurobiology, pharmacology, physiology, biomaterials and tissue engineering, biomedical imaging, bioinformatics, and epidemiology and public health. While prior work in oral or craniofacial biology and medicine is not essential, the successful candidates will be expected to outline a planned research program with clear relevance to these areas. As a requirement for academic appointment, it is expected this role will assume a teaching and/or mentoring component within the School.

Located in the heart of Boston’s Longwood Medical Area, the Harvard School of Dental Medicine ranks as one of the preeminent dental schools in the country. Established in 1867, HSDM was the first dental school in the United States to be connected with a university and coordinated with its medical school.

HSDM’s vision is to transform access to healthcare and advance science to find cures for oral diseases and conditions. By leveraging its current scientific strengths in areas of skeletal biology and the pathology of bones, joints, vascular and connective tissues, HSDM has established a strategic direction to expand its basic, translational and clinical research programs. The School’s long-term goal is to be at the forefront of research into the cause and cure for oral diseases and conditions. Such research enables dental medicine to impact new avenues of research by taking dentistry beyond the traditional mechanical techniques, and repositioning the discipline firmly in the realm of biology.

With this vision as our guide, the School is dedicated to developing and fostering a community of global leaders advancing oral and systemic health. For more information about the Harvard School of Dental Medicine, please visit: http://hsdm.harvard.edu/.

Basic Qualifications: Qualified candidates will hold a PhD, DMD or equivalent, or MD, and will have completed postdoctoral training. Strong productivity reflected in an excellent publication record will be required. Candidates at the assistant professor level should have evidence of prior success in obtaining extramural grant or fellowship support; candidates at the associate professor level should have evidence of current or pending R01 (or equivalent) funding. Successful candidates will receive a competitive start-up package and salary commensurate with experience.

Additional Qualifications

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Dear {Prefix} {First_name} {Last_name}:

The search committee for the {Job Posting Title} position, {School} has reviewed applications and has chosen a short list of candidates for further consideration. I regret that your candidacy will not be advanced to the final round of consideration. We received applications from a number of exceptionally well-qualified applicants, and we have been obliged to make difficult choices among very attractive applications. We are grateful for your interest in this position, and I am sorry that your application could not be among those we are pursuing further.

On behalf of all the search committee members, I want to thank you for your application and wish you the very best in your continuing academic work.

Sincerely,

Search Administrator, {Job Posting Title}
