The Division of Rheumatology, Inflammation, and Immunity
Brigham and Women’s Hospital

The Division of Rheumatology, Inflammation, and Immunity (RII) at Brigham and Women's Hospital seeks an outstanding, collaborative clinical scientist and rheumatologist.

The Division of RII at BWH is nationally ranked and has an outstanding record of research, clinical care, and education. The Section of Clinical Sciences (the “Section”) has 12 faculty clinical investigators, 3-5 trainees and over 25 research staff (coordinators and analysts). The Section is one of the oldest clinical research groups in rheumatology in the US with continuous NIH funding for over 40 years. Faculty are world leaders in many clinical areas of research. In addition, the Section has a focus on health equity and community-engaged research, comparative effectiveness, pharmacoepidemiology, causal inference modeling, mediation analysis, bioinformatics and qualitative research. Members of the Division are also leaders in hospital-wide quality improvement and equity initiatives, and in medical education. The successful candidate will also engage in teaching medical students and fellows. Annual base salary is guaranteed for 2 years. Academic rank at Harvard Medical School will be at Instructor, Assistant Professor or Associate Professor, commensurate with experience and qualification.

The Division of RII has a large, cutting-edge clinical practice. 38 staff physicians provide care at the Brigham and Women’s Hospital as well as at 5 satellite facilities, seeing > 37,000 patient visits each year. The hospital provides infusion services, nursing staff and administrative support and uses the same integrated EMR for inpatient and outpatient care. The Section is complemented by robust basic and translational science research efforts. There are multiple core translational facilities in the Division, facilitating research with many large patient cohorts, including patients with RA, psoriatic arthritis, and SLE. The Division of RII is committed to recruiting and retaining a diverse and inclusive workforce that advocates for health equity.

Applicants should send a CV and letter of interest to:
Daniel Solomon, M.D., MPH
Chief, Section of Clinical Sciences
and Ellen Gravallese, M.D.
Chief, Division of RII
Brigham and Women’s Hospital
60 Fenwood Road
Boston, MA 02115

or via email: dsolomon@bwh.harvard.edu, egravallese@bwh.harvard.edu

We are an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law. Women and underrepresented in medicine candidates are particularly encouraged to apply.
