BRIGHAM AND WOMEN’S HOSPITAL

ACADEMIC CLINICAL CYTOGENETICIST

The Department of Pathology at Brigham and Women’s Hospital (BWH), a principal teaching affiliate of Harvard Medical School, seeks a full time Clinical Cytogeneticist in the Center for Advanced Molecular Diagnostics (CAMD). The Laboratory performs high complexity testing on a wide variety of specimen types for both constitutional and acquired aberrations. The ideal candidate should have a MD, PhD, or MD/PhD degrees and hold ABMGG certification or be eligible for ABMGG Certification in both Clinical Cytogenetics and Genomics and Clinical Molecular Genetics and Genomics or in Laboratory Genetics and Genomics. Applicants with sign out experience in a diagnostic genetic laboratory that offers both cytogenetic and molecular technologies are preferred. A working knowledge of informatics and/or computational biology would be beneficial. The successful applicant’s principal duties will include reviewing, interpreting, and reporting diagnostic data, including those obtained from karyotypic, FISH, and microarray assays. Faculty are expected to develop a clinical/translational research program, whether independent or collaborative, and to participate in local and national professional organizations and conferences. Applicants should be committed to scholarship, patient care, research, and teaching, which may occur in a range of didactic courses and through supervision of medical students, residents, and fellows in the laboratory. The position will include a Harvard Medical School faculty appointment as Instructor, Assistant Professor or Associate Professor; academic rank and salary will be commensurate with experience and accomplishments.

Interested candidates should send a curriculum vitae, a cover letter detailing experience and interest, and three letters of reference to:

Azra Ligon, Ph.D., Department of Pathology, Brigham and Women’s Hospital, 75 Francis St., Department of Pathology, CAMD, Shapiro 5-048, Boston MA 02115, or to aligon@bwh.harvard.edu

Women and minorities are encouraged to apply. We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
