Lymphoma Clinical Researcher

The department of Medical Oncology at the Dana-Farber Cancer Institute and the Department of Medicine, Brigham and Women’s Hospital, announce a search for a physician at the Instructor, Assistant or Associate Professor level to join the Division of Lymphoma. The successful candidate will participate in a very active lymphoma clinical practice that is fully integrated within a large and growing clinical and translational research program. She or he will spend approximately half of her or his time developing an independent clinical research program in lymphoma, and half on the clinical care of adult patients with lymphoma. Interest and expertise in the conduct of clinical trials is desired. The successful candidate will also engage in teaching medical students, housestaff, and hematology/oncology fellows in the clinic and inpatient settings. Academic rank as Instructor, Assistant or Associate Professor at Harvard Medical School will be commensurate with experience, training, and achievements.

Applicants should have an M.D. or M.D./Ph.D., with ABIM certification and be board certified or board eligible for ABIM subspecialty certification in medical oncology or hematology. Applicants should submit a letter of interest, CV, and the names and email addresses of 3 references to:

Philippe Armand, MD, PhD
Chair-Search Committee
