The Department of Radiology at Massachusetts General Hospital (MGH), Harvard Medical School (HMS), in Boston, MA, is seeking to fill two full-time faculty positions in the Division of Nuclear Medicine and Molecular Imaging. The position involves clinical (diagnostic and therapy), teaching and research activities, including training of nuclear medicine and radiology residents at MGH, and other affiliated hospitals within the Mass General Brigham (MGB) Health system. The applicant will have an M.D. or M.D./Ph.D. degree(s) or equivalent and have a Massachusetts Board of Certification in Medicine Medical license prior to the appointment start date. Candidates for this position must possess board certification in Diagnostic Radiology from the American Board of Radiology (ABR) and Nuclear Medicine from the American Board of Nuclear Medicine (ABNM) or subspecialty certification of Nuclear Radiology from the ABR. Academic rank of Instructor, Assistant or Associate Professor at HMS and salary will be commensurate with experience. The Division of Nuclear Medicine and Molecular Imaging is equipped with state-of-the-art equipment including multiple newly installed digital PET/CT and multiple SPECT and SPECT/CT cameras. A state-of-the-art PET/MR camera is slated to be installed shortly. The nuclear medicine program also includes a Medical Cyclotron, PET Radiochemistry laboratories, and small animal imaging resources. Our scope of practice is very broad, and our clinical service covers an array of nuclear imaging for cardiology, oncology and neurology as well as radioligand therapies. The Division is dynamic and there are abundant opportunities for research, innovation and teaching. Please send curriculum vitae and a cover letter to: Umar Mahmood, MD PhD, Chief, Division of Nuclear Medicine and Molecular Imaging, Department of Radiology, Massachusetts General Hospital, 55 Fruit Street, White 427, Boston, MA 02114, or via email to umahmood@mgh.harvard.edu.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

The Department of Radiology is committed to ensuring our diverse community feels welcome, cared for, and valued. Candidates who have experience working with a diverse range of faculty, staff and patients, and who can contribute to the climate of inclusivity are encouraged to identify their experiences in these areas.
