The Massachusetts General Hospital Department of Radiation Oncology is seeking to recruit a full-time academic radiation oncologist to join its practice with interests in central nervous system cancers on the main campus location in Boston. The applicant will be expected to be active clinically, to supervise medical students and medical residents, and to engage in research. The incumbent will enjoy working in a collaborative, multidisciplinary clinical, research, and academic setting with colleagues in the Department and throughout the hospital.

Appointment as an Instructor, Assistant Professor, or Associate Professor at the Harvard Medical School will be commensurate with experience, training and achievements in addition to teaching activities. Suitable candidates must have an MD or an MD-PhD and Board Certification in Radiation Oncology.

The Radiation Oncology Department, an integral part of the comprehensive Mass General Cancer Center, is equipped with Elekta and Varian linear accelerators with integrated imaging capabilities, a proton cyclotron with 3 treatment rooms, a single gantry proton synchrotron, GE CT Simulators, HDR brachytherapy suite and Raystation, Astroid and Oncentra Treatment Planning systems. The department, including our community-based locations, treats over 400 patients per day. The department is fully supported by a talented team of radiation therapists, dosimetrists, medical physicists, nurses, nurse practitioners, and administrative support staff.

Interested candidates should send a personal statement with research interest, three potential referees and curriculum vitae to:

Dr. Kevin Oh  
c/o Amanda Maidment, Program Manager  
Department of Radiation Oncology  
Massachusetts General Hospital  
100 Blossom Street, COX 802D  
Boston, MA 02114  
Electronic submissions to: amaidment@mgh.harvard.edu
