Junior Faculty Position in Program Evaluation

The Center for Integration Science in the Division of Global Health Equity at Brigham and Women’s Hospital seeks a junior faculty member in Program Evaluation to join our program.

Applicants should have excellent graduate experience in Global Public Health with an emphasis on the evaluation of interventions. A successful candidate should have at least 15 years of global health experience. This experience should include evidence synthesis, qualitative research, and quantitative analysis. The applicant must have multiple years of experience working with global advocacy groups, and should have proven site based experience in both Sub-Saharan Africa and Asia.

The Center for Integration Science works to advance distributive justice by developing, implementing, and evaluating integrated care delivery models to address severe conditions such as type 1 diabetes, sickle cell, and rheumatic heart disease in highly-constrained health systems. The Center for Integration Science is a Center within the Division of Global Health Equity in Department of Medicine at Brigham and Women’s Hospital, and is a collaboration with the Program in Global Noncommunicable Disease and Social Change at Harvard Medical School, and the NCD Synergies project at Partners In Health. The Center also serves as the co-secretariat for the 21-country NCDI Poverty Network. The Center is directed by Gene Bukhman, MD, PhD, Associate Professor of Medicine and Global Health and Social Medicine at Harvard Medical School.

An academic rank of Instructor or Assistant Professor at Harvard Medical School will be commensurate with experience, training, and achievements. The successful candidate will design research studies and provide guidance in ongoing research projects, build their own research program, and engage in teaching and mentoring students in the classroom and within the division.

Please send a C.V. and cover letter describing your interest to Gene Bukhman via email at eyale1@bwh.harvard.edu.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, pregnancy and pregnancy-related conditions or any other characteristic protected by law. Women and minority candidates are particularly encouraged to apply.
