Enjoy 7+ weeks of vacation annually, while putting your passion and innovation to use, as a doctoral level psychologist for the highly reputable Manville School!

The Manville School at The Baker Center for Children and Families has an exciting Ph.D./Psy.D School or Clinical Psychologist opportunity!

ABOUT MANVILLE SCHOOL

Manville School, since having opened in 1957, has continuously been recognized as a leader of special needs day schools in the Boston area. Manville provides educational services for up to 115 students from kindergarten through 10th grade and has approximately 75 educational, clinical and counseling staff members. As a therapeutic day school, Manville provides innovative educational programming and comprehensive, evidence-based clinical services, which combined, enable students with challenging needs to experience academic success, social development, and emotional growth. For more information on Manville School, visit https://bakercenter.org/manville-school.

Manville believes that all members, including students, staff, and caregivers have a right to feel safe, seen, and respected. Manville values all identities and a community of belonging for all!

POSITION RESPONSIBILITIES:

Reporting to the Clinical Director, who is engaging, caring, extremely flexible, and an experienced and bright, innovative, and inspirational leader, the psychologist will provide high quality mental health treatments to a culturally diverse population of children from kindergarten through 10th grade, utilizing evidence-based practice (EBP). Individuals complete all clinical documentation, conduct diagnostic and psychoeducational assessments, coordinate care with families, other community-based providers, government agencies, and others, as appropriate, and provides consultation services as needed. Additionally, functions as the internal team-leader for case conferences, actively participates in all Individualized Education Plan (IEP) Meetings, and performs other initiatives as requested. As clinical coordinator, serve on the schoolwide management team and provide clinical leadership and classroom supervision together with a small team.

QUALIFICATIONS:

Registered Health Service Psychologist in good standing in Massachusetts or interest in transferring out-of-state licensure

3 years of post-license experience within a fast-paced environment, and exposure to inpatient and residential settings, preferred

A commitment to culturally responsive care

Experience or familiarity with evidence-based practices (CBT and/or DBT are especially beneficial)

Clinical supervision experience of psychology practicum and doctoral level psychology interns is required

Ability to analyze and utilize outcomes from data, and excellent written and verbal communication skills

Computer proficiency, including knowledge of Microsoft Word
WHAT’S IN IT FOR ME:

Realize your potential, and the impact of your hard work, on children and adolescents with varying mental health concerns!

Work independently and collaboratively in a supportive, collegial, and family-oriented atmosphere, with a talented, bright, fun, humorous and hard-working team of individuals!

The opportunity to demonstrate your passion and expertise, and to potentially grow into a leadership role, developing and mentoring, and training others, while continuing to learn and grow, yourself!

Salary and benefits are competitive, and The Manville School offers, 7+ weeks of vacation, plus holidays, in addition to excellent health insurance and retirement benefit contributions!

Contribute your innovative ideas to Manville School’s culturally-sensitive, and inclusive environment, with the support of a highly regarded and well-established organization!

Opportunity to participate in learning and professional growth, through Baker Center’s high level of commitment, and ongoing professional training, to, and for its staff!

A faculty appointment at Harvard Medical School may be available for qualified candidates at the rank of instructor.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy, and pregnancy-related conditions or any other characteristic protected by law.

TO APPLY: Send cover letter and CV to Anne Cangello, Psy.D. e: acangello@jbcc.harvard.edu or ph: 617-278-4270 with inquiries!
