The Department of Neurology at the Massachusetts General Hospital is recruiting a board-certified Cognitive Neurologist at the level of Instructor, Assistant Professor, or Associate Professor with experience and interest in joining our academic neurology practice in the Memory Disorders Division. Successful applicants should have a completed a Neurology Residency and Cognitive-Behavioral fellowship in a major teaching hospital and should be familiar with working with neurology residents, interns and fellows within an academic hospital setting.

Clinical focus should be on leading the delivery of quality patient care and patient satisfaction through specialized clinic in Alzheimer’s disease and other aging-related cognitive health and neurodegeneration. Applicants with a clinical research interest are encouraged to apply, as many opportunities for clinical trials and translational research are available. Applicants will be asked to provide teaching to trainees at all levels as specified by the Harvard Medical School teaching requirements. It is expected that the candidate will engage in teaching in the Harvard community with a minimum of 50 hours required per year. Appointment at Harvard Medical School will be commensurate with experience, training, and achievements. Applications from women and representatives of underrepresented minority groups are welcomed and encouraged to apply. Applications from women and representatives of minority groups are welcomed and encouraged.

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Applications from women and representatives of minority groups are welcomed and encouraged. Interested candidates should send a statement of interest, names of three potential referees and Curriculum Vitae to:
