Interventional Cardiologist / Expertise in Structural and Coronary Intervention

Division of Cardiovascular Medicine, Department of Medicine, Brigham and Women’s Hospital

The Brigham and Women’s Hospital (BWH) Division of Cardiovascular Medicine seeks a faculty member for the Section of Interventional Cardiology with expertise in Structural/Valvular Heart Disease and Percutaneous Coronary Intervention. The candidate will have a strong record as a mentor and teacher. The faculty member will care for patients in the Cardiac Catheterization Laboratory at Brigham and Women’s Hospital. Ambulatory patients will be seen on the Main Campus and other community outreach sites. The successful candidate will develop a thriving academic cardiology practice.

The ideal candidate will have had several years of experience as an independent operator of Structural Heart Disease procedures including transcatheter aortic valve replacement, transcatheter mitral and tricuspid edge-to-edge repair, and left atrial appendage occlusion. The candidate will also have a track record of investigation and will be expected to take a leading role in structural heart research at Brigham and Women’s Hospital.

Appointment as Instructor, Assistant Professor, or Associate Professor at the Harvard Medical School will be commensurate with experience, training, and achievements, including teaching activities. Applicants must be board certified in Cardiovascular Disease and Interventional Cardiology. Please send curriculum vitae and a cover letter to: Pinak Shah, MD; Attention: Michele Weiser, Division of Cardiovascular Medicine, Department of Medicine, Brigham and Women’s Hospital, 75 Francis Street, Boston, MA 02115, or via email to: mlweiser@bwh.harvard.edu. Brigham and Women’s Hospital/Harvard Medical School is an affirmative action/equal opportunity educator and employer.

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, pregnancy and pregnancy-related conditions or any other characteristic protected by law. Women and minority candidates are particularly encouraged to apply.
