

**Boston Children's Hospital**  
Endocrinology

**Department of Pediatrics**  
**Division of Endocrinology**

**Boston Children's Hospital Division of Endocrinology** Boston Children's Hospital Division of Endocrinology seeks full-time BC/BE pediatric endocrinologist to provide a full range of endocrine care, including but not limited to caring for patients with diabetes, supervising the inpatient/consultation service for 3 weeks per year, and participating in the training of fellows, residents and medical students. Applications welcome from full-time clinicians as well as from physician-scientists with active research programs.

We offer competitive salary and benefits, and interactions with friendly colleagues with diverse expertise. Appointment as an Instructor or Assistant Professor at Harvard Medical School will be commensurate with experience, training, achievements and teaching activities. Please email CV with names/email addresses of three references by October 15, 2022 to Dr. Joel Hirschhorn, Chief, Division of Endocrinology, Boston Children's Hospital, c/o Ms. Tanyshia Graves, [tanyshia.graves@childrens.harvard.edu](mailto:tanyshia.graves@childrens.harvard.edu). Statements describing candidates' contributions to diversity are welcomed. Active involvement in research is not required but statements describing ongoing research activities are welcome.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
