Research Faculty Position in Musculoskeletal/Orthopaedic Research; Director of the Brigham Center for Musculoskeletal Regenerative Medicine

The Department of Orthopaedic Surgery at Brigham and Women’s Hospital seeks candidates for a full-time research faculty position in the area of musculoskeletal sciences with a focus on tissue engineering and regenerative medicine. The candidate should have an interest in the pathogenesis of various musculoskeletal disorders as well as in the development of novel therapeutic approaches for the treatment of orthopedic problems related to the loss or degeneration of tissues as a result of injury, disease, or aging. Preclinical *in vitro* and *in vivo* investigations directed toward clinical translation are encouraged. An academic appointment at the rank of Associate Professor or Professor at Harvard Medical School will be commensurate with experience and accomplishments.

This position includes a joint position as Director of the Center for Musculoskeletal Regenerative Medicine. The Inaugural Director will be charged with establishing the Center for Musculoskeletal Regenerative Medicine, in collaboration with the Brigham Research Institute. The Director will develop a rich training environment for younger investigators interested in Musculoskeletal Regenerative Medicine.

The successful candidate will have a doctoral degree in Biology, Molecular Biology, BioEngineering or a related discipline. This position includes collaborative opportunities engaging the faculty and facilities at Brigham and Women’s Hospital and the Harvard Medical School.

The ideal candidate will have the ability to maintain an independently funded laboratory and have leadership experience.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Candidates should send a curriculum vitae, statement of research and teaching interests and the contact information for 3 references to:

Gretchen Kindstedt, Senior Research Administrator, Department of Orthopaedic Surgery, Brigham and Women’s Hospital 75 Francis Street, Boston, MA, 02115
