The Department of Neurology at Massachusetts General Hospital is seeking an ABPN certified academic Neurologist to serve as Division Chief of the Movement Disorders Division and to join the faculty of Harvard Medical School at the Professor or Associate Professor level.

The successful candidate should be clinically active and have a national or international reputation as an expert in clinical movement disorders and/or research related to the biology, genetics or treatment of movement disorders and related neurological diseases. The candidate will have responsibilities for overseeing the administrative, clinical, research and educational activities of the Division, and will have responsibilities for teaching, supervising and mentoring Harvard medical students, residents, fellows and junior faculty. The candidate should have an established research program and a demonstrated ability to attract sustained research funding. Although substantial direct clinical and research experience would be advantageous, less experienced candidates with exceptional promise will also be considered.

Appointment as Professor or Associate Professor of Neurology at the Harvard Medical School will be commensurate with experience, training and achievements. Suitable candidates will have MD or MD-PhD degrees. Applications from women and representatives of minority groups are welcomed and encouraged.

Interested candidates should submit a Curriculum Vitae to:

Merit E. Cudkowicz, MD, MSc.
Chief, Department of Neurology
c/o Andrew J. Cole, MD
Chair, Movement Disorders Division Chief Ad Hoc Search Committee
Massachusetts General Hospital
