Brigham and Women’s Hospital (BWH) is seeking a physician or physician-scientist with a track record of research accomplishments in neurocritical care for the position of Director, Neurological-Neurosurgical Intensive Care Unit. Hospital employment and academic appointment at the rank of associate professor or professor at Harvard Medical School (HMS) will be dependent upon the individual’s prior experience and scholarship. This candidate will serve in a senior leadership role within the Departments of Neurology and Neurosurgery, the BWH Program in Neuroscience, and the Brigham and Women’s Hospital. The candidate should have an independent research program in neurocritical care with a track record of obtaining peer-reviewed funding, mentoring and teaching trainees, and administrative experience. To be considered, candidates must hold the M.D. or M.D./Ph.D. degrees and be board-certified in a neurocritical care specialty area (neurology, neurosurgery, anesthesiology, other). Candidates should have strong teamwork, and interpersonal abilities. Additional conditions of employment are provided via this link: https://www.partners.org/For-Medical-Professionals/Employment-Conditions.aspx

For consideration for this position, please send a statement of interest and curriculum vitae to jrodriguez@bwh.harvard.edu by October 1, 2019:

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
