The Neuro-Oncology Program at the Dana-Farber Cancer Institute and Brigham and Women’s Hospital is seeking applications from medical oncologists or neurologists with a strong interest in clinical and translational research, for a position at the Instructor or Assistant Professor level at Harvard Medical School, commensurate to academic accomplishment.

The applicant will be expected to become an expert in neuro-oncology with an emphasis on brain tumors; develop, participate, and lead clinical and translational research projects; and take an active role in the program’s clinical activities. Also, there is an expectation to be active academically, teaching medical students, residents, and fellows. The applicant will be able to work in an extraordinary environment that fosters collaboration with researchers in neurosurgery, neurology, radiation oncology, neuroradiology, neuropathology and basic sciences in developing innovative studies. This is a unique and exciting opportunity to become a major participant in a nationally recognized clinical and translational research program. Please submit your Curriculum Vitae and the names of three references to:

Patrick Wen, MD
Director, Neuro-Oncology Program
Dana-Farber/Brigham and Women’s Cancer Center
