The Brigham and Women's Division of Cardiovascular Medicine and Department of Medicine are seeking an outstanding interventional cardiologist to help lead the coronary intervention program at Kent Hospital in Warwick, Rhode Island, to be a member of the busy Brigham and Women's Cardiovascular Consultants practice at Care New England, and to serve as a critical link between the Kent Hospital cardiac catheterization laboratory and the catheterization laboratory at the Brigham and Women's Hospital's main campus. Appointment as Instructor, Assistant Professor, or Associate Professor (part-time) at the Harvard Medical School will be commensurate with experience, training, and achievements, in addition to teaching activities. The Kent Hospital catheterization laboratory has a large and growing volume of STEMI's as well as elective PCI's and has Brigham and Women's Hospital advanced interventional fellows. The laboratory receives referrals from the more than 10 member Brigham and Women's Cardiovascular consultants group. All members of the group are full-fledged members of the Brigham and Women's Cardiovascular Division, have rotations and teaching responsibilities at Brigham and Women's Hospital, and an appropriate Harvard Medical School appointment. The group staffs and has full responsibility for an outstanding electrophysiology laboratory, consultation service, ambulatory facility and practice, advanced imaging, a structural heart service, advanced heart failure, cardiac rehabilitation, clinical research, and the teaching of medical residents and mid-levels.

The appropriate candidate will have outstanding coronary diagnostic and interventional skills as well as extensive knowledge in hemodynamics, valvular heart disease, and pericardial disease. Excellent general cardiology skills as well as strength in communication and program building are required. Salary and incentive plan are highly competitive. Must be board-eligible or board-certified in cardiovascular medicine and interventional cardiology.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, pregnancy and pregnancy-related conditions, or any other characteristic protected by law. Women and minority candidates are particularly encouraged to apply.

Interested candidates should send CV and a cover letter to:

Dr. Dale Adler, MD, Chair, Search Committee, and Executive Vice Chair
