The Joslin Diabetes Center, an academic affiliate of Harvard Medical School, is seeking a bioinformatics/biostatistics faculty member. She/he will be expected to work with faculty involved in both clinical and basic research to apply and develop biostatistical and bioinformatic techniques to analysis of diabetes research data.

The applicant will be expected to supervise students and fellows and to work collaboratively with a broad range of faculty. Appointment as an Instructor or Assistant Professor at Harvard Medical School will be commensurate with experience, training, and achievements in addition to teaching activities. Suitable candidates will have an MD-PhD or equivalent degree status.

Interested candidates should send a personal statement with research interest, three potential referees and Curriculum Vitae to Kimberly Monaco at kimberly.monaco@joslin.harvard.edu.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, pregnancy and pregnancy-related conditions, disability status, protected veteran status, or any other characteristic protected by law. Women and minority candidates are particularly encouraged to apply.
