The Department of Radiology at Beth Israel Deaconess Medical Center is seeking applicants for a full-time faculty position in Interventional Radiology.

Board-eligible Interventional Radiologists are encouraged to apply. The interventional radiologist will work predominantly in the IR section, although he/she will be expected to interpret non-invasive vascular imaging. Candidates will be expected to perform a wide range of advanced vascular and non-vascular fluoroscopic, CT, and US-guided interventions. IR faculty members are expected to lead and develop specific clinical service lines, which may include development of IR services at one of our affiliate hospitals. Individuals should be interested in working in an academic medical center department, with expectations of teaching medical students, residents, and fellows, and participating in and initiating research. All full-time IR faculty members participate in an interventional call pool.

The Interventional Radiology Division has 9 full-time and 1 part-time faculty members, an ACGME-accredited IR fellowship (4 fellows per year) and IR/DR residency programs, and 5 advanced practitioners. Hospital-based facilities span two adjacent campuses and include 3 primary multi-modality advanced angiography suites (with intra-procedural CT capabilities and in-room ultrasound), 2 additional fluoroscopy rooms, procedural CT suites, and a shared bi-plane angiography suite. Additionally, the section staffs an off-site outpatient vein center, an outpatient dialysis access care center, has initiated IR services at two community affiliate hospitals, and interprets diagnostic studies from an ICAVL-accredited vascular lab. The practice has a robust formal inpatient consult service and outpatient clinic. The division has close collaborative relationships with referring services and staffs several multidisciplinary conferences per week.

Beth Israel Deaconess Medical Center is a major Harvard Medical School-affiliated teaching hospital, with 750 licensed beds and well-developed multi-specialty clinical programs, including multi-organ transplantation, large pancreaticobiliary and OB/Gyn practices, and an NCI-designated Cancer Center. The Medical Center has 9 affiliated hospitals and an expanding referral network.

Candidates must be eligible for academic appointment at the Instructor, Assistant Professor or Associate Professor level at Harvard Medical School. Salary and academic rank will be commensurate with qualifications and experience. Interested applicants should send CV and letter describing interest, background and qualifications to: Ms. Andrea Baxter, Executive Assistant to the Chair, Department of Radiology; abaxter@bidmc.harvard.edu. For more information, please contact Ms. Baxter at 617-754-2519.

HMFP/APHMFP offers equal employment opportunity to all applicants for employment and to all employees regardless of race, color, religion, sex, gender identity or expression, national origin, age, citizenship, sexual orientation, ancestry, marital status, pregnancy and pregnancy-related conditions, physical or mental disability, medical condition, protected veteran status, or any other characteristic protected by applicable law.
