The Brigham and Women’s Hospital (BWH) Division of Cardiovascular Medicine seeks an accomplished Director of Women’s Cardiovascular Health to help lead and further build a world-class program at Brigham and Women’s Hospital that integrates our clinical and translational research in this field with a full-service clinical center of exceptional quality. Outstanding team collaboration, program-building, and leadership skills are essential. In addition, a record of successful and substantial academic accomplishment in Women’s Cardiovascular Health is desirable. The candidate must be able to create, coordinate, and grow this new program by marshalling the talents of our Brigham Health faculty and communicating to patients, referring physicians, and the public the unique strengths, advantages, and features that make our Program a top destination for comprehensive evaluation and management of Women’s Cardiovascular Health. This position will be based in BWH Preventive Cardiology and integrated with the BWH Linda Joy Pollin Center for Women’s Cardiovascular Health, offering further support and collaborative opportunities. The candidate will also be involved in teaching and supervising medical students, residents, and cardiology fellows. Appointment as Instructor, Assistant Professor, or Associate Professor at Harvard Medical School will be commensurate with experience, training, and achievements.

Applicants must be board certified in Internal Medicine and Cardiovascular Diseases.

Interested candidates should send a CV and a personal statement to:

Dr. Kathryn Rexrode, MD, MPH
Chair, Search Committee and Chief of the Division of Women’s Health
Department of Medicine,
Brigham and Women’s Hospital,
75 Francis Street, Boston, MA 02115,
or via e-mail to: aditommaso@bwh.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
