The Department of Neurology at Brigham and Women’s Hospital is seeking an academic scientist with a track record of research accomplishments in glioma biology. Hospital employment and academic title of Instructor or Assistant Professor, at Harvard Medical School (HMS) is dependent upon on the individual’s prior experience and scholarship. This candidate will develop an independent research program in gliomas with the goal of obtaining peer-reviewed funding, and with an opportunity for mentoring and teaching trainees. A generous start-up package is available. To be considered, candidates must hold the M.D., M.D./Ph.D., or Ph.D. degree. Candidates should have strong teamwork, and interpersonal abilities. Additional conditions of employment are provided via this link: [https://www.partners.org/For-MedicalProfessionals/Employment-Conditions.aspx](https://www.partners.org/For-MedicalProfessionals/Employment-Conditions.aspx)

For consideration for this position, please send curriculum vitae to the following address or email by **March 31, 2019**:
