Co-Director or Director - Cardiovascular Interventionalist

The Division of Cardiovascular Medicine and the Department of Medicine, Brigham and Women's Hospital is seeking a superb interventionalist who can also serve as either codirector or director of the cardiovascular interventional fellowship program. The candidate must be fully trained in diagnostic cardiac catheterization, complex coronary artery disease assessment, and complex coronary intervention. In addition, the candidate must have expertise in an additional area of interventional cardiology including vascular intervention, interventional heart failure, or structural heart disease, ideally with a focus on left atrial appendage occlusion.

There should be a record of accomplishment and ongoing strong interest in either clinical or translational investigation, and there should be demonstrated strength and interest in teaching and mentoring.

The candidate should have excellent administrative and program building skills and a vision for training highly accomplished interventional fellows. The candidate should also have a dedication to teaching and supervising medical students, residents, and general cardiology fellows. Appointment at the Instructor, Assistant Professor, or Associate Professor level at Harvard Medical School is anticipated, commensurate with academic and clinical record.

Interested candidates should send a CV and a personal statement to:

Dr. Dale Adler
Dept. of Medicine
Brigham and Women’s Hospital,
One Brigham Circle 3-312N
1620 Tremont Street
Boston, Ma 02120
or via e-mail to: abrowning@bwh.harvard.edu
