Massachusetts General Hospital
Massachusetts General Hospital for Children

Pediatric Pulmonology
Sleep Medicine
Assistant in Pediatrics/Assistant Pediatrician

The Department of Pediatrics, Division of Pediatric Pulmonology at Massachusetts General Hospital (MGH) and MassGeneral Hospital for Children (MGHfC) invite applications for full-time appointment as an Assistant in Pediatrics/Assistant Pediatrician to join a multidisciplinary team of clinicians and researchers with a clinical focus on Pediatric Sleep Medicine and Pediatric Pulmonary. The successful candidate will have earned an M.D. or M.D. / Ph.D. or equivalent and be BC/BE in pediatric pulmonary and sleep medicine. Academic rank at Harvard Medical School is anticipated at the instructor/assistant Professor level, commensurate with experience.

Strong clinical demand, coupled with a growing research portfolio, is driving numerous opportunities to participate in the multidisciplinary care of pediatric pulmonary patients as well as clinical research for treatment of pulmonary and sleep disorders. We offer a position with a clinical focus on pediatric sleep medicine to support an expanded program, joining two board certified sleep faculty. The comprehensive, growing, pediatric pulmonary practice at MGHfC includes eight pediatric pulmonologists providing specialty care in aerodigestive disease, neuromuscular disease, cystic fibrosis, sleep medicine, ventilator dependence and asthma programs. The sleep medicine program has achieved accreditation by the AASM and is supported by a clinical collaboration with Massachusetts Eye and Ear. There is ready access to advanced diagnostic modalities including full pulmonary function testing, cardiopulmonary exercise testing and polysomnography.

The department has ACGME accredited pediatric and medicine/pediatric Residency programs as well as an ACGME accredited pediatric pulmonary and sleep fellowship program. Inherent in the position is the commitment to education as the individual will also be expected to participate in academic training of medical students, residents and fellows.

The candidate’s primary focus will be as a clinician/educator in pediatric sleep medicine, with the potential for involvement in clinical research for those that are interested. Salary and benefits will be commensurate with qualifications, achievements and training.
MGH seeks candidates whose experience, teaching, research and community service has prepared them to contribute to our commitment to excellence and diversity.

For full consideration, applications should be received no later than April 15, 2019. Completed applications include CV, cover letter, statement of teaching, research and contributions to diversity, as applicable. Interested candidates should direct submission of documents to:

T. Bernard Kinane, M.D.
Chief, Division of Pediatric Pulmonology
Massachusetts General Hospital
Department of Pediatrics
55 Fruit Street
