The Dana Farber/Boston Children’s Hospital Cancer and Blood Disorders Center invites applications for a tenure track position at the Assistant Professor level. The appointee will be a faculty member of the Department of Pediatrics, Harvard Medical School. The responsibilities of the position will include the clinical care of pediatric patients with hematologic malignancies and translational research on hematological malignancies including genomic analyses, precision medicine trials and preclinical studies. The successful candidate will also have experience in developmental therapeutics with an expectation to collaborate in the development of novel therapeutic approaches for children with hematopoietic malignancies. The ideal candidate should have a strong background in laboratory-based research coupled with experience in translational investigation. The candidates should be interested in identifying novel agents and conducting relevant pre-clinical studies, either independently or jointly with other laboratory-based investigators. Candidates must have an MD or MD/PhD degree and postdoctoral experience. This position will also be involved in teaching medical students, residents, and fellows.

Women and members of under-represented minorities are encouraged to apply. The position will be based at the Dana-Farber Cancer Institute (an NCI-designated Comprehensive Cancer Center). Salary offered will be consistent with fair market rate and commensurate with experience.

Interested candidates should submit a curriculum vitae, a statement of interest, and three letters of recommendation to:

Scott A. Armstrong, MD, Ph.D.
Chair, Department of Pediatric Oncology Dana Farber Cancer Institute and

David A. Williams, M.D.
President, Dana-Farber/Boston Children's Cancer and Blood Disorders Center and Chief Scientific Officer, Boston Children's Hospital

c/o Tara Roderick
Dana-Farber Cancer Institute, 450 Brookline Avenue, Boston, MA 02215
