Section Chief, Abdominal Radiology

Harvard Medical Faculty Physicians (HMFP) at Beth Israel Deaconess Medical Center (BIDMC)

The Department of Radiology at Beth Israel Deaconess Medical Center, a Harvard Medical School affiliate, is seeking suitable candidates to serve as our Section Chief of Abdominal Radiology. This renowned section has a remarkable and longstanding history of scholarship and funded innovation in MRI, CT, ultrasound and image-guided procedures. We are seeking an individual who will continue to drive the research, education, and clinical operations, and the career advancement of our outstanding abdominal imaging staff.

The Division of Abdominal Radiology has 15 dedicated faculty members, an ACGME-accredited fellowship (6 abdominal and 2 dedicated MRI fellows per year), and 4 advanced practitioners. Hospital-based facilities span two main campuses and include 7 clinical MRI scanners, 44 clinical ultrasound machines, 12 multidetector-row CT machines, and 2 procedural CT suites. The division treasures its close collaborative relationships with referring services and its contributions to several multidisciplinary conferences per week are highly valued by their clinical colleagues. Translational MRI and CT research projects, including hyperpolarized MRI and dual-energy MDCT, health science services, informatics, and radio-genomics are recent and current research endeavors of the Division.

BIDMC is a major Harvard Medical School-affiliated teaching hospital with 649 beds, a Level I trauma center, and well-developed multi-specialty clinical programs, including renowned pancreatico-biliary and OB/Gyn practices, liver transplantation center, specialized IBD clinic, an advanced urology department, and an NCI-designated Cancer Center. Candidates should be excited to work in an academic environment and committed to teaching medical students, residents, and fellows.

Candidates for this position should have experience managing a clinical division, or equivalent level of operational experience, must be board-certified in diagnostic radiology and be eligible for licensure in the Commonwealth of Massachusetts. Fellowship training in abdominal imaging, body MRI or an equivalent is required. Candidates should be eligible for appointment at the Assistant or Associate Professor level at Harvard Medical School; salary and academic rank will be commensurate with qualifications and experience. Interested applicants should send a letter of interest and a current CV to Andrea Baxter at abaxter@bidmc.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
