

FACULTY POSITION
SECTION OF MEN'S HEALTH, AGING AND METABOLISM IN THE
DIVISION OF ENDOCRINOLOGY, DIABETES, AND HYPERTENSION
BRIGHAM HEALTH
BRIGHAM AND WOMEN'S HOSPITAL

The Section of Men's Health, Aging and Metabolism in the Division of Endocrinology, Diabetes, and Hypertension at Brigham Health seeks MD candidates who are board certified/eligible in Internal Medicine and Endocrinology for a full-time faculty position. Candidates should have training and expertise in reproductive endocrinology and/ or aging and be proficient in clinical practice, research and teaching in an academic environment. Candidates must have significant commitment to research and would also see patients with primarily reproductive endocrine disorders in the Brigham Health system (main campus), and engage in some teaching and other academic activities. Applicants must hold an MD degree, and have completed training in Internal Medicine, with fellowship training in the field of Endocrinology. Minority candidates are encouraged to apply.

Academic rank as an Instructor, or Assistant or Associate Professor at Harvard Medical School will be commensurate with experience, training and achievements. The successful candidate will also engage in teaching students, housestaff, and fellows in the lab, clinic and inpatient settings.

Interested candidates should send a curriculum vitae and names, addresses, and phone numbers of three references to: Dr. Shalender Bhasin, Director, Research Program: Men's Health, Aging and Metabolism, Division of Endocrinology, Brigham and Women's Hospital, 221 Longwood Ave, Boston, MA 02115, sbhasin@bwh.harvard.edu or to alarson6@bwh.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
