

Massachusetts General Hospital for Children

Assistant in Pediatrics

The Division of Pediatric Nephrology at Massachusetts General Hospital (MGH) and MassGeneral Hospital for Children (MGHfC) invites applications for full-time appointment as an Assistant in Pediatrics. Candidates will be eligible for appointment at Harvard Medical School as Lecturer, part-time, Instructor, part-time or Assistant Professor, part-time level, commensurate with experience. All Harvard faculty must teach Harvard associated learners at least 50 hours/year. The successful candidate will have earned an M.D. or M.D./Ph.D. or equivalent and be BC/BE in Pediatrics and Pediatric Nephrology.

The applicant will have expertise in outpatient clinical activities, inpatient attending responsibilities, and teaching and mentorship of pediatric residents and medical students. The Pediatric Nephrology division provides the full spectrum of acute and chronic renal services of a tertiary level academic hospital including renal replacement therapies, plasmapheresis, transplantation, and prenatal consultations. The division is in the process of expanding its clinical catchment area and as such, the candidate will have the opportunity to develop a community-based practice in collaboration with our clinical affiliates in southern New Hampshire as well as participate in the clinical activity at the academic medical center in Boston. A portion of his/her time may be devoted to research and other scholarly activities.

The Division of Pediatric Nephrology consists of five successfully established pediatric nephrologists, providing care to patients representing the entire spectrum of nephrology conditions. The Division of Pediatric Nephrology provides patient and family centered care to its large patient base and includes a full-time registered nurse to support the ambulatory practice. MGHfC offers the dual advantage of a children's hospital within the internationally renowned Massachusetts General Hospital, consistently ranked as one of the best general hospitals in the world. Pediatric nephrologists and other pediatric specialists benefit from a vast campus with outstanding clinical resources and research activities within the MassGeneral Brigham healthcare system, the largest health care network operating within the greater Boston area.

Interested candidates should send curriculum vitae and a brief letter outlining their interests to:

Harald Jueppner, M.D
Chief, Division of Pediatric Nephrology
Department of Pediatrics
Massachusetts General Hospital
55 Fruit Street, Thier 1037
Boston, MA 02114
Attn: Diane Centofanti

Electronic submission to hjueppner@mgh.harvard.edu is strongly encouraged.
