About Brigham and Women's Hospital

BWH Primary Care provides comprehensive adult medical care for over 200,000 patients across our sixteen primary care practices throughout the greater Boston area. Our facilities are modern and patient-centered, with high-caliber clinical and support staff teams. Our PCPs see a complete range of adult patients across all demographics and diseases and conditions. Our growing network of primary care practices in eastern Massachusetts is testimony to Brigham and Women's commitment to primary care as a critical component of managing populations, and our dedication to providing the best experience and health outcomes for our patients.

- Pre-employment health and drug screening and annual compliance with the Influenza Vaccination Policy
