Mass General Brigham

BRIGHAM AND
WOMEN'S HOSPITAL

Director, Intraoperative Neuromonitoring Service
Massachusetts General Hospital & Brigham and Women's Hospital

The Departments of Neurology at Massachusetts General Hospital and Brigham and Women's Hospital are seeking an ABPN certified Neurologist to serve as Division Chief of the **Massachusetts General Hospital (MGH) and Brigham and Women's Hospital (BWH) Intraoperative Neuromonitoring Program** and to join the faculty of Harvard Medical School.

The successful candidate should be an expert in clinical neurophysiology and intraoperative monitoring with a national or international reputation and a record of research and publication in monitoring and/or related areas. The candidate will have responsibilities for overseeing the administrative, clinical, research and educational activities of the MGH and BWH Intraoperative Monitoring Program, and will have responsibilities for teaching, supervising and mentoring Harvard medical students, residents, fellows and junior faculty. While substantial clinical and administrative experience is desirable, outstanding candidates at earlier stages of their careers will be considered and are encouraged to apply.

Appointment at the Harvard Medical School will be commensurate with experience, training and achievements. We anticipate the successful candidate will be qualified for appointment at the Associate or Assistant Professor of Neurology level. Applications from women and representatives of under-represented minority groups are welcomed and encouraged to apply.

Interested candidates should submit a Curriculum Vitae and letter describing interests and experience to:

Tracy Batchelor, MD, MPH and Merit Cudkowicz, MD, MSc
Co-Chairs, Ad Hoc Joint MGH & BWH Intraoperative Monitoring Search
Committee
