The Department of Pathology at Brigham and Women’s Hospital, a principal teaching affiliate of the Harvard Medical School, is seeking a Board-certified dermatopathologist to join an expanding academic Dermatopathology Service under the leadership of Dr. George Murphy. Applicants should have a strong record of training and experience in diagnostic dermatopathology/anatomic pathology in an academic setting, and the ability to conduct an independent or collaborative clinical/translational research program in dermatopathology, with focus on non-melanoma skin cancer being desirable. The environment also provides substantial opportunities for more basic research. Brigham and Women’s Hospital participates in the Joint Harvard Dermatopathology Fellowship Training Program. The BWH Department of Pathology, which is staffed by more than 120 faculty and more than 55 residents and clinical fellows, handles over 85,000 surgical specimens annually, including over 15,000 skin biopsies, and is responsible for provision of pathology services at the Dana-Farber Cancer Institute, where there are also ample opportunities for multidisciplinary collaboration, as there are at multiple other Harvard-affiliated institutions. Applicants should be committed to excellent patient care, as well as research, scholarship and effective teaching. Academic rank (at Instructor, Assistant Professor or Associate Professor) and compensation will be commensurate with experience and accomplishments.

Please send curriculum vitae and names and addresses of three references to:

Christopher D.M. Fletcher, M.D., FRCPath
Vice-Chair for Anatomic Pathology
Department of Pathology
Brigham and Women’s Hospital
75 Francis Street
