The Division of Neurosurgery at Beth Israel Deaconess Medical Center (BIDMC) is seeking to recruit an interventional neuroradiologist with academic interests. Applicants must have completed fellowship training in interventional endovascular neurology, radiology or neurosurgery, be proficient in endovascular neurological/neurosurgical procedures, and be ABPN board-eligible or certified. Additional fellowship training and certification in neurocritical care or vascular neurology is desirable but not required. Successful candidates are expected to perform interventional neurology/endovascular neurosurgery procedures and participate in call coverage with a team of three endovascular neurosurgeons. They will also be expected to perform other clinical activities consistent with their training and be involved in various research, outreach, and teaching activities within the BIDMC Comprehensive Stroke Center. The successful candidate for this position may be considered for Harvard Medical School appointment as Instructor, Assistant Professor, or Associate Professor commensurate with experience and achievements.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law. Women and underrepresented minorities are particularly encouraged to apply. Applications are made online at www.hmfphysicians.org/careers. Please respond to requisition 201620.
