Pharmaceutical Scientist, Biomedical / Chemical Engineer - Drug Delivery Researcher

The Division of Gastroenterology, Hepatology and Endoscopy, Department of Medicine at Brigham and Women’s Hospital seeks a recognized pharmaceutical scientist expert with biomedical device development experience. Applicant should have a strong commitment to developing solutions to major unmet needs and experience in a broad range of drug formulation and drug delivery approaches including implants for extended drug release, novel extended release and/or responsive drug depots for the treatment of metabolic disease, pre-clinical animal model pharmacokinetic experience in large animals, teaching and applied research. Academic rank at Harvard Medical School Instructor in Medicine and salary are commensurate with qualifications and experience. The investigator is expected to participate in Harvard University courses/workshops for medical students and fellows taught in the School of Medicine and supervise postdoctoral fellows and graduate students in the laboratory settings. Please send CV to: C. Giovanni Traverso, MD, PhD Division of Gastroenterology, Hepatology and Endoscopy, Brigham and Women’s Hospital, 75 Francis Street, Boston, MA 02115-6195, or via e-mail CV to: kdriscoll@bwh.harvard.edu.

Brigham and Women’s Hospital/Harvard Medical School Equal Opportunity/Affirmative Action Employers and are actively committed to increasing the diversity of our faculty: women and members of underrepresented minority groups are therefore strongly encouraged to apply.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
