Department of Orthopaedic Surgery

Primary Care or PM&R Physician
Trained in Sports Medicine

The Department of Orthopaedic Surgery at Brigham and Women’s Hospital seeks a Board certified Primary Care or Physical Medicine and Rehabilitation (PMR) physician trained in Sports Medicine. The MD, DO, or MD/PhD candidate must demonstrate professional, academic and teaching leadership skills and emphasis on clinical research. Appointment as an Instructor, Assistant or Associate Professor at Harvard Medical School will be commensurate with experience, training, and achievement.

Candidates will be working closely with the Sports Medicine Orthopaedic Surgeons of the Department to provide outstanding care of athletes at all levels. The candidates should be fellowship trained in either Primary Care or PM&R Sports Medicine specialties and competent and willing to tackle primary care aspects for professional and event sports when needed. In addition, the candidates should possess leadership skills for programmatic development as well as a strong foundation for clinical research. Basic science research opportunities also exist for those who have a strong interest.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Please send your CV and letter of interest to Brenda Surowiec in Dr. James Kang’s office at bsurowiec@bwh.harvard.edu
