MGH Pediatric Radiology Division Chief

The Massachusetts General Hospital Department of Radiology is seeking a Division Chief for the Division of Pediatric Radiology. The chosen candidate will hold a faculty rank of Assistant Professor or Associate Professor at Harvard Medical School, commensurate with experience. The division provides imaging and image-guided interventional services to the MassGeneral Hospital for Children, which provides healthcare to infants, children and adolescents. The Hospital treats more than 200,000 patients annually and has more than 400 physicians, 80 medical specialties and 15 surgical services. The pediatric division is equipped with state-of-the-art radiography, ultrasound, CT, PET and MRI. The division also provides diagnostic imaging services throughout the MassGeneral Brigham (MGB) health system.

Pediatric radiologists collaborate closely with other divisions and specialties in the hospital. This division also runs an ACGME-accredited pediatric radiology fellowship program and provides comprehensive training for medical students, residents, and fellows. The position includes responsibility for clinical, research, and educational activities. The MGH Department of Radiology has a strong commitment to faculty development and academic advancement.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Curriculum vitae and letters describing interest, background and qualifications should be addressed to James A. Brink, MD, Radiologist-in-Chief, Massachusetts General Hospital, Austen 2-210, Boston, MA, 02114 and emailed to jabrink@mgh.harvard.edu and saoshaughnessy@mgh.harvard.edu.
