The Department of Pediatrics, Division of Pediatric Allergy and Immunology at Massachusetts General Hospital (MGH) invites applications for full-time appointment as an Assistant in Pediatrics or Assistant Pediatrician to join a multidisciplinary team of researchers and clinicians. The successful candidate will have earned an M.D. or M.D. / Ph.D. or equivalent and be BC/BE in Allergy and Immunology and Pediatrics or combined Medicine/Pediatrics.

The candidate will be eligible for an appointment at Harvard Medical School as an Instructor or Assistant Professor, if they teach Harvard associated learners at least 50 hours/year, commensurate with qualifications, achievements and experience.

Strong clinical demand coupled with a growing research portfolio is driving numerous opportunities to participate in the multidisciplinary care of allergy patients and clinical research for treatment of these disorders. We offer a position with an emphasis on the outpatient care of patients with a variety of allergic diseases. As part of the MGH Pediatric and Immunology Division, and in collaboration with the Division of Rheumatology, Allergy and Immunology in the Department of Medicine in the training of Allergy/Immunology Fellows, the individual will also be expected to participate in inpatient management of allergy and primary immunodeficiency and the academic training of the Fellows.

The candidate’s primary focus will be as a clinician/educator, with the potential for involvement in clinical research for those that are interested. Particular interest is in the recruitment of individuals with expertise and interest in epidemiology, clinical effectiveness, informatics and/or translational science to complement a rapidly growing clinical and translational research program.

MGH seeks candidates whose experience, teaching, research and community service has prepared them to contribute to our commitment to excellence and diversity.
Interested candidates should submit a curriculum vitae and a one page narrative of clinical, teaching and research interests to:

Wayne G. Shreffler, M.D., Ph.D  
Chief, Division of Pediatric Allergy and Immunology  
Massachusetts General Hospital  
Department of Pediatrics  
55 Fruit Street  
CPZS 5-559  
Boston, MA 02114  
Attn: Christine McGinness  

Electronic submission to cmcginness@mgh.harvard.edu is strongly encouraged.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
