HARVARD MEDICAL SCHOOL

HARVARD MEDICAL SCHOOL MISSION

To nurture a diverse, inclusive community dedicated to alleviating suffering and improving health and well-being for all through excellence in teaching and learning, discovery and scholarship, and service and leadership.

HARVARD MEDICAL SCHOOL COMMUNITY VALUES

Harvard Medical School is a community dedicated to excellence and leadership in medicine through education, research and clinical care. We aspire to excellence through a commitment to our community values.

Collaboration & Service

- We work together to serve our HMS, neighboring, national and global communities.
- We acknowledge that our behavior affects the experiences of others, and act in ways that are kind and respectful to all.

Diversity & Respect

- We value and respect all individuals for their unique perspectives, experiences, and potential to contribute.
- We foster a culture of inclusion and engagement, and communicate respectfully.
- We seek diversity and promote equity and social justice.

Integrity & Accountability

- We conduct our work honestly and ethically.
- We lead responsibly, hold ourselves accountable, and empathetically share constructive feedback.
- We speak up and empower others to do the same.

Lifelong Learning

- We promote an environment of learning and discovery.
- We embrace innovation and understand that creative solutions often require taking risks.
- We strive for excellence through ongoing professional and personal improvement.

Wellness & Balance

- We value the wellbeing of every member of the community.
- We encourage and support healthy and productive lifestyles recognizing they require the integration of work and life.

We are Harvard Medicine.

Faculty Council

The Faculty Council is the formal voting body of the Faculty of Medicine of Harvard Medical School. The electoral structure is designed to assure proportional representation across disciplines and institutions. Members are peer elected from among all areas of HMS with faculty appointments and serve three-year terms.

The Faculty Council advises the Dean in the formulation of major changes to policy and innovations for the Schools of Medicine and Dental Medicine. The Council submits recommendations for consideration to the Dean on major policy issues. The Faculty Council also receives reports from standing and ad hoc committees of the Dean. The Dean provides periodic reports concerning the financial status of the Schools and other relevant topics.

See the Faculty Council page for current members, agendas and meeting minutes:

RESOURCES: FACULTY PROMOTION PROCESS

Faculty of Medicine CV Guidelines

For general guidance and templates for preparation of the CV or to schedule a Faculty CV consultation, please visit: <https://fa.hms.harvard.edu/faculty-medicine-cv-guidelines>

For specific questions on the promotions process, please contact:

OFA_Promotions@hms.harvard.edu

The **Faculty of Medicine CV**, along with letters from internal and external referees and examples of scholarly work, provides the major evidence for the evaluation of candidates for promotion. Accurate and complete reporting of contributions and achievements in the CV is therefore essential.

An **Annual Career Conference** is required for all faculty members. Consideration of promotion pathway, metrics, and readiness for promotion should be discussed in these meetings. During ACCs, department chairs or their designees should reaffirm the roles and responsibilities of each faculty member (including the expectations that link to our mission in teaching, service, investigation, administration, etc.), review their accomplishments over the past year, and agree on goals for the coming year.

RESOURCES: TEACHING

Program in Medical Education (PME)

The Program in Medical Education (PME) at Harvard Medical School is the organizational structure housing education programs that lead to the MD degree. Under the leadership of the Dean for Medical Education and the Associate Dean for Medical Education Planning and Administration, the PME oversees the MD program at HMS, including all aspects of the MD curriculum and student support services, and medical education quality improvement, planning and policy. We strive to empower our students, faculty, and alumni as they work together to transform the world of medicine.

Website: <https://meded.hms.harvard.edu/faculty-opportunities>

Email: pme@hms.harvard.edu

Health Sciences & Technology (HST)

The HST Academic Office supports our students and faculty as they integrate science, engineering, and medicine to solve problems in human health. Our primary goal is to prepare students for productive careers as leaders in medical research and academic

medicine. We strive to provide an individualized educational experience, to cultivate leadership and teamwork, and to foster respect for all. Through our educational program administration and support services, the Academic Office provides a strong foundation for the educational mission of IMES/HST.

Office for Scholarly Engagement (OSE)

The Office for Scholarly Engagement (OSE) supports students as they pursue research and service opportunities in Boston, across the country, and around the world.

Our office coordinates:

- Scholarly project graduation requirement for Pathways and New Pathway
- Funding for student research, service and conferences where students present
- Soma Weiss Student Research Day
- Graduation with honors
- Clinical elective exchange programs
- Medical language training
- Offers other student resources

The OSE coordinates opportunities for HMS faculty to mentor student research.

<https://meded.hms.harvard.edu/mentoring-student-research>

Harvard faculty may post an opportunity for student scholarship in the OSE Opportunities Database. Your opportunity will also appear on your Harvard Catalyst faculty profile. HMS-affiliated faculty can find information about the scholarly project and mentor requirements at:

Graduate Student Teaching

Graduate students at Harvard Medical School (HMS) are integral drivers of our research productivity and reputation, and are the intellectual engine that sustains our institutional excellence. Graduate education is a major contributor to the HMS mission, “To create and nurture a diverse community of the best people committed to leadership in alleviating human suffering caused by disease.” HMS graduate programs provide an integrative network allowing our students to work with researchers across a breathtaking landscape of multiple Harvard campuses and affiliated institutions. Nine life-science PhD programs are based at HMS, and students in these programs are enrolled in the Harvard University Graduate School of Arts and Sciences (GSAS). HMS also offers two types of Master’s degrees in seven different research concentrations. Those interested in teaching master’s or PhD students are best served by reaching out directly to the program heads of the programs listed on the graduate education website.

Opportunity to teach in nanocourses, faculty can find out more here:

<https://curriculumfellows.hms.harvard.edu/nanocourses>

Website: <https://hms.harvard.edu/education-admissions/graduate-education>

The Academy

The Academy is responsible for professional development of faculty who teach in the MD program. Its role is also to develop and support a community of leaders in education and a culture of excellence in teaching and learning, to foster the careers of educators in medicine and science, to provide programming to improve the skills of teachers, to stimulate and support the creation and implementation of innovative approaches to learning and assessment, and to support educational research and scholarship in medical and graduate education.

HMS Office for External Education

The Office for External Education provides broad access to HMS's peerless and constantly evolving body of medical knowledge through four areas of focus: Postgraduate Medical Education for clinicians and researchers, Executive Education for business and science leaders who work in industries related to health care, HMX Online Learning for those pursuing careers in healthcare, and Harvard Health Publishing for health-conscious consumers and content providers.

The Office for External Education provides benefits to faculty through:

- Expanded reach, recognition, and impact
- New avenues for research funding and collaborations
- Opportunities for academic advancement

With opportunities ranging from teaching and writing, to blended and e-learning, we invite you to get involved with the Office for External Education.

RESOURCES: FUNDING

Harvard Catalyst

Established in 2008, Harvard Catalyst | The Harvard Clinical and Translational Science Center is dedicated to improving human health by enabling collaboration and providing tools, training, and technologies to clinical and translational investigators. As a shared enterprise of Harvard University, Harvard Catalyst resources are made freely available to all Harvard faculty and trainees, regardless of institutional affiliation or academic

degree. Harvard Catalyst is funded by the National Institutes of Health (NIH) Clinical and Translational Science Awards (CTSA) Program (grant UL1 TR001102).

HMS Foundation Funds, Office for Academic and Clinical Affairs

The HMS Foundation Funds Program administers the nomination process for HMS/HSDM faculty and postdocs for Limited Submission Funding Opportunities (LSO's) from private foundations. Limited submission opportunities require candidates to be nominated by either Harvard Medical School or Harvard University. Each year, several foundations invite HMS/HSDM junior faculty members and postdocs to apply for over 7 million dollars in fellowships and grants, which serve as critical funding at the early stages of a research career. Interested investigators must first apply internally through the HMS Foundation Funds, and a committee will select the final candidates who will then submit applications to the foundations.

Main Office: 617-432-7463

Eleanor and Miles Shore Faculty Development Award Program, Office for Faculty Affairs

The Eleanor and Miles Shore Faculty Development Awards Program (Shore Program) strives to support the Faculty of Medicine at the level of instructor and assistant professor by administering a range of award opportunities to support academic activities. Award funds are provided by HMS, HSDM, affiliated institutions, departments, divisions, centers, and/or private donors.

The awards may be used for protected time from clinical, teaching or other responsibilities to pursue academic work, including research, or developing a new clinical or teaching program. Funds awarded can be used for additional laboratory assistance at a time when independent funding is not attainable. The award is not intended to provide total support.

In January, instructors and assistant professors are invited to apply for awards. In the fall, the selection process culminates in a reception, sponsored by the Shore Program, to honor recipients in the presence of deans, families, friends, mentors, and peers.

HMS|HSDM Leadership Development Course for Physicians and Scientists

Each spring, the Office for Faculty Affairs offers a three-day course designed for HMS and HSDM instructors, assistant professors, and associate professors who have responsibility for a research grant, laboratory, educational course, or clinical program. The goal of the course is to build on participants' knowledge base and skills to enhance their professional development as administrative leaders in academic medicine. The curriculum focuses on human resource management, negotiation, finance, self-assessment, communications, and personal career development. Women and faculty, who are underrepresented in medicine are particularly encouraged to apply. Program information on eligibility, commitment, tuition and fees can be found at the website below.

HMS|HSDM|HSPH Ombuds Office

The Ombuds Office is a confidential, neutral, independent and informal place to bring any issues affecting your work or studies. Our office is open to faculty, staff, students, trainees and appointees to HMS, HSDM, HSPH and their affiliated institutions. The Ombudsperson's role is to listen and to help identify issues, goals and options; visitors will make their own best decisions regarding next steps. Options can include coaching on how to have a difficult conversation, informal mediation, group facilitation and information about resources and formal complaint processes. The Ombuds Office also provides conflict resolution and negotiation trainings on request.

LGBT Office

The LGBT Office was established in 2014 to enhance diversity inclusion while fostering an open, affirming, and welcoming community for LGBT students, staff, faculty, trainees, and fellows at Harvard Medical School and Harvard School of Dental Medicine (HMS/HSDM).

Our goal is to identify key areas of importance, programmatic interventions, and resources that support LGBT issues. We collaborate with relevant offices and programs within HMS/HSDM, Harvard University, and the broader community to build an inclusive environment. The LGBT Advisory Committee advises the Dean of the Faculty of Medicine on key priorities that address issues of importance to the HMS/HSDM LGBT community.

Harvard Faculty Real Estate Services

Services for Existing Faculty:

- Harvard's Faculty Real Estate Services will provide advice about the local sales and leasing markets, discuss the specific housing needs of the faculty member and explain the benefits of the Harvard's Real Estate Advantage Program (REAP), and sign them up through Coldwell Banker Real Estate for brokerage or leasing services.
- All existing faculty—and staff—are eligible for REAP and are able to access this service by calling Faculty Real Estate Services and by contacting Coldwell directly at (800396-0960). The program provides excellent brokerage services and a cash back to the buyer (or the seller) after the transaction is completed. The cash back amount is determined by the sales price of the home and is half of the referral fee that Harvard receives from Coldwell Banker.
- Leasing agents are available to help all Harvard faculty members find a good rental property. The Faculty Real Estate Services department can discuss your housing needs and recommend a good leasing agent to help find housing.

Home Buying and Selling Seminars and Webinars:

Faculty Real Estate Services can hold seminars at any HMS location. In addition, all HMS and Affiliated Teaching Faculty and employees are invited to participate in the webinars that they can access via the Internet. The seminars/webinars cover the basics of home buying and sales, including topics such as:

- How much can I really afford to pay?
- What type of special loans are available? (first-time buyer, physician, and more)
- How to secure that new home in a competitive market.
- How does the process, from offer to acceptance to closing, work?

Preferred Mortgage Lenders

As part of the Real Estate Advantage Program, our preferred lenders offer mortgages at reduced rates and/or closing costs.
