

Committee on Global Projects and Sites

The responsibilities of the HMS Committee on Global Projects and Sites include: making recommendations to the Dean regarding the strategic direction and development of global programs; developing academic, operational, and financial policies and processes for the development and implementation of programs; reviewing proposals for new programs that require institutional approval; facilitating the review process for programs requiring provostial approval; and periodic review of existing programs. The Committee members include leadership from the HMS Quad departments and HMS-affiliated institutions.
