Professor of the Practice Statement of Impact GUIDE
(Full-time or Part-time)

Please provide a 1-2-page description of your public intellectual profile and the national/international impact of your work. Please highlight major accomplishments and leadership roles. It is helpful to demonstrate how your expertise aligns with the research, clinical and/or educational missions of the Faculty of Medicine.

Evidence to support the strength of your reputation and impact will vary with particular experience, but might include the following:

- Leadership in administrative, clinical, research, and/or educational initiatives, including:
    - Development of research or health infrastructure, including facilities, resources, and related services and programs
    - Construction of large-scale databases, repositories, biobanks, networks and/or computational tools
    - Drug discovery and development
    - Establishment of global or community health programs or resources
- Leadership service on boards of directors, advisory boards or other national/international committees
- Contributions to public policy
- Contributions to public health and/or public health education
- Authorship of books, white papers, guidelines, or other publications
- Status as an inventor on patents
