

MASSACHUSETTS
GENERAL HOSPITAL

**Faculty Position
Electrophysiology
Department of Medicine
Massachusetts General Hospital**

The Cardiology Division and Corrigan Minehan Heart Center at the Massachusetts General Hospital are seeking clinical electrophysiologists with academic and clinical expertise to join the Telemachus & Irene Demoulas Family Foundation Center for Cardiac Arrhythmias.

Candidates should be superb electrophysiologists, possess exceptional collaborative skills, have clear evidence of their research accomplishments, and demonstrate a commitment to teaching and mentorship.

Positions are being considered for mid-career faculty members. Less experienced candidates with exceptional promise will also be considered. Specific expertise that is desirable includes ventricular tachycardia ablation, atrial fibrillation ablation, and/or device extraction. Candidates with a track record of basic or translational research program would also be desirable.

All candidates should meet or exceed the criteria for appointment as an Assistant or Associate Professor at Harvard Medical School.

Interested candidates are requested to submit a Curriculum Vitae to Dr. Patrick Ellinor for consideration: MGHCardiologySearch@partners.org

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
