

MASSACHUSETTS
GENERAL HOSPITAL

Orthopaedic Trauma / MSK Infection Surgeon

Massachusetts General Hospital is seeking a BE/BC, fellowship-trained orthopaedic trauma surgeon with clinical interest and experience in the management of musculoskeletal (MSK) infection. Affiliated with Harvard Medical School the candidate will join a well-established and busy orthopaedic trauma service. Together with colleagues, the candidate will be responsible for the overall clinical care of orthopaedic trauma and fracture patients both as inpatients and outpatients. In addition, the candidate will have oversight of patients with MSK native soft tissue / joint infection and infectious complication from orthopaedic surgeries. As such, the candidate should have interest in developing and managing complication of fractures (nonunion, malunion, infection, and osteomyelitis), in concert with Infectious Disease and Plastic Surgery Services. The candidate should have a MD or DO degree, a minimum of one-year fellowship training in Orthopaedic Traumatology, must be eligible for a Massachusetts medical license, and have ATLS Certification, preferably as an instructor. Given the vision and mission of MGH Orthopaedics and the academic level of the department, the candidate should have an established commitment to education, research, and a personal career development plan. The candidate will be expected to be a collegial member of our faculty and fulfill the academic aims of the department and HMS at the Instructor, Assistant Professor, or Associate Professor level.

Interested, qualified candidates should send a letter of interest and curriculum vitae to:
