

MASSACHUSETTS  
GENERAL HOSPITAL

CLINICAL & TRANSLATIONAL  
EPIDEMIOLOGY UNIT

**Assistant or Associate Professor, Clinical and Translational Epidemiology Unit**  
**Massachusetts General Hospital**  
**Boston, MA**

The Clinical & Translational Epidemiology Unit (CTEU) at Massachusetts General Hospital (MGH) and Harvard Medical School is seeking applications for a research faculty position at the Assistant or Associate Professor level.

**Department**

The MGH Clinical and Translational Epidemiology Unit (CTEU) is a research unit within the Department of Medicine (DOM) and Mongan Institute. The core mission of the CTEU is to advance epidemiologic investigation for the translation of discoveries into effective clinical interventions. The CTEU utilizes, develops, and optimizes cutting edge epidemiologic methods to discover and characterize determinants of human health, develop novel preventive and therapeutic interventions, and elucidate molecular biomarkers for the development of precision medicine strategies. Approaches include the analysis of traditional epidemiologic exposures, as well as novel genetic, biochemical, metabolomic, proteomic, and microbial biomarkers.

Please visit the CTEU website for more information, <https://www.mghcteu.org/>.

**Position Description**

The faculty member will have an opportunity to build a robust research program. Candidates with the skills to develop, implement, disseminate, and evaluate tools and technologies that leverage epidemiologic methods to address chronic disease outcomes, including but not limited to cancer, cardiovascular disease, metabolic diseases, and diseases of aging. Evidence of the ability to effectively collaborate in a team science environment is essential.

We welcome applications from researchers interested in disparities, social determinants of health, and/or structural racism, whether as a primary or supplemental focus. We are committed to a diverse faculty and strongly encourage applications from female candidates, underrepresented groups, and anyone who would enhance our research and educational mission.

MGH and the Department of Medicine are committed to ensuring that everyone in our community feels welcomed, cared for, and valued. Candidates who have experience working with a diverse range of faculty, staff, and patients, and who can contribute to the climate of inclusivity are encouraged to identify their experiences in these areas.

**Basic Qualifications**

The successful candidate will have earned an M.D., Ph.D., or equivalent, and have a demonstrated record of success in clinical and translational research, including original publications and independent funding.

The academic rank of Assistant Professor or Associate Professor at Harvard Medical School will be commensurate with qualifications and experience. All faculty are expected to contribute substantively to our educational programs through teaching and mentorship. Salary and benefits will be commensurate with experience, training, and achievements.

**Instructions**

We encourage individuals to submit their applications by July 31, 2023. Applications will be considered on a rolling basis until the position is filled. Please include a cover letter, CV, and four letters of recommendation. Please send

applications, including all required documentation to Julie Wusenich, Program Manager, CTEU;  
[jwusenich@partners.org](mailto:jwusenich@partners.org).

*We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.*
