

**ACADEMIC NEUROMUSCULAR NEUROLOGIST
BRIGHAM AND WOMEN'S HOSPITAL
DEPARTMENT OF NEUROLOGY**

Brigham and Women's Hospital is seeking a board-certified Neurologist (M.D.) with an interest in neuromuscular neurology and EMG, preferably with subspecialty certification or neuromuscular neurology training. The candidate will be hired as an Assistant or Associate Neurologist with inpatient and outpatient clinical duties but is also expected to participate in quality improvement initiatives and/or teaching of residents, fellows, and physician assistants, and/or clinic research.

Clinical duties are divided between two locations, the main campus at the Brigham and Woman's Hospital in Boston and a site 15-20 miles south of the city in South Weymouth MA. More than half of the time will be spent at the south shore location. Clinics at the south shore satellite are weighted towards neuromuscular cases and performance of EMG with a mix of general neurology. Two to three days a month are spent covering inpatient and emergency room neurological consultation at the South Shore Hospital, an affiliate institution.

Appointment at the Harvard Medical School will be commensurate with experience, training, and achievements. This will be a part time Harvard Academic Appointment, which carries an obligation to teach within the Harvard community a minimum of 50 hours per year. We anticipate the successful candidate will be qualified for appointment at the Instructor, Assistant Professor, or Associate Professor level. A commitment to clinical excellence and to clinical teaching is sought.

Applications from women and representatives of under-represented minority groups are welcomed and encouraged to apply.

Candidates should possess a Massachusetts license to practice medicine. Additional conditions of employment are provided via this link: <https://www.partners.org/For-Medical-Professionals/Employment-Conditions.aspx>

Interested and qualified candidates are asked to email a cover letter and curriculum vitae to any or all of the persons below:

Michael T. Hayes, M.D.
Chief of Neurology, South Shore Hospital
Vice Chair of Community Affairs, Department of Neurology
Brigham and Women's Hospital
